

MERAJ PolyXT® MODULAR SUPERSTRUCTURES & TANKS

Meraj International FZC is proud to Introduce First time in UAE, latest and advanced PolyXT® Structures & Tanks made from Polypropylene technology for Special application vehicles.

PolyXT® structure is superior technology offering lowest life cycle cost to the owners when compared with traditional fabrication made of steel structures.

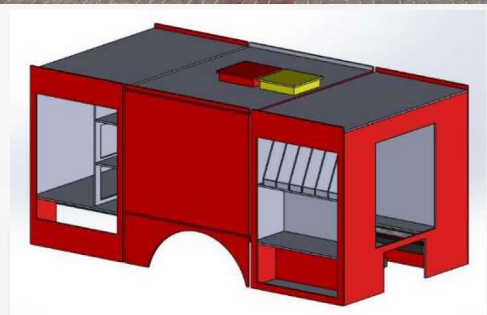

PolyXT® Modular Bodies & tanks are innovative solution that provide completely corrosion free to all types of water including sea water yet food grade with no additional coating or maintenance.

PolyXT® are 40% lighter than steel which allows extra payload to carry within a GVW limit of the Truck chassis compare to steel.

Salient Features of PolyXT®:

- ❖ Customized design structure and tanks meeting the customer requirement.
- ❖ Food Grade material that allow to store & transport of Drinking Water in a tank.
- ❖ Suitable for Roughest Cross Country Operation
- ❖ Structure design to sustain all dynamic forces
- ❖ Absolutetly Corrosion proof
- ❖ Heat resistant upto 110 °C
- ❖ Impact resistant
- ❖ Various Chemical resistant
- ❖ UV stabilized material
- ❖ Light weight
- ❖ Easily repairable
- ❖ Paintable
- ❖ Durable
- ❖ Maintenance free
- ❖ Environmental friendly
- ❖ 100% recyclable at the end of service life

Environment Friendly:

100% recyclable at the end of useful life.
